

SEAMAN (COURSE CODE – GP)

TRAINING

Now-a-days shipping by ocean remains the most efficient and cost effective mode of transportation used by the global trading community. With the increase in exports and imports between countries, the number of ships operating across the globe has already crossed one lakh and is still growing. Relatively, the requirement of marine personals has been increasing day by day.

A modern ship consists of a host of complex and sophisticated machine. The role of the Seaman is to assist the officers, and maintaining the machinery safely and efficiently which requires a high degree of skill and expertise. The training shapes a simple man to a professional Mariner.

About GP Rating Training:

The Seaman General Purpose Rating (G.P.) course aims to equip you with the knowledge and skill required to work on ship as a ordinary Seaman. The course duration is Six months.
