NAVIGATIONAL OFFICER DIPLOMA NAUTICAL SCIENCE [COURSE CODE – (DNS)]

TRAINING

Now-a-days shipping by ocean remains the most efficient and cost effective mode of transportation used by the global trading community. With the increase in exports and imports between countries, the number of ships operating across the globe has already crossed one lakh and is still growing. Relatively, the requirement of marine personals has been increasing bay by day.

The role of Navigational Officer is to perform the task of operating and maintaining modern navigational equipments and machineries safely and efficiently which requires a high degree of skill and expertise. The training shapes a cadet into a professional Navigational Officer.

About D.N.S. (Diploma Nautical Science) Training:
